General Maritime Crewing Ltd.

■ COMPANY

ABOUT COMPANY

The private crewing company General Maritime Crewing Ltd was established in February 2005 by the American shipping company General Maritime Corporation - owners and operators of the second largest fleet of Aframax and Supertankers in the world. Nowadays, you may meet large tankers carrying the "Genmar" and flying a remarkable green flag with letter G on it in all oil ports and most oil ports and many countries. Since its creation in 1997, General Maritime Corporation has shown impressive growth to become, in a short period of time, one of the world's leading transportation and shipping company's.

In the modern tanker industry with its many important aspects of safe and efficient Management has decided to establish the quality of personnel on board of Russian seafarers since 2001. General Maritime Crewing company in Novorossiysk has a large seafaring community has a source of quality seamen, especially

General Maritime Crewing Ltd is a part of a wide crewing chain consisting of crewing offices located in the USA, Great Britain, Greece, India, Pakistan, Singapore and Philippines which recruit quality seamen for the Genmar fleet. There are more than two thousand seamen of many nationalities presently working in the Genmar family. We are experienced in employment of crews consisting of single and multi nationals. In Russia we already offered more than 500 jobs to seamen of all ranks from different parts of the country. Presently we supply crews for tankers on a constant basis and continue to increase the data base records taking into account demands and requirements of our principals and their expanding plans.

General Maritime Crewing Ltd.

■ SERVICE

SERVICES

Our company is duly certified by Immigration Department of the Russian Ministry of Internal Affairs for recruiting of Russian citizens abroad (Certificate No. 20105230788 dd 13/04/2005). We also hold Certificate of Compliance No. 9001-2000 issued by Russian Ministry of Transportation on 19/04/2000. We fully comply with current Russian and international regulations in regard to employment and training of seamen for modern fleet. All crewing operations are carried out as per Safety and Quality System set up in place fleet-wide for all Genmar ships in accordance with ISM Code.

All seafarers employed through General Maritime Corporation have signed a Fleet Agreement signed between General Maritime Corporation and the International Labour Organization (ILO) with leading wage rates for its fleet. The standard is being constantly improved. We offer attractive salaries for all ranks of seamen according to the ILO/ITF. There is a comprehensive benefit system for junior officers: we offer a great opportunity to work on a tanker company. For all seamen we offer a great life on board and certain look into the future.

Quality staff - High standards - Competitive salaries - Certain future
